

Newcastle, 23rd November 2019

To whom it may concern

Subject: Confirmation Letter

I hereby confirm that Professor Daniela Placha, PhD, from the Nanotechnology Centre at VSB Technical University of Ostrava, Czech Republic, has been hosted at Northumbria University, within the Faculty of Engineering and Environment, specifically in the Mechanical and Construction Engineering Department.

On 20th November, Professor Placha graciously delivered an invited talk titled “**Clay in Natural and Modified Forms for Nanotechnology**”. Additionally, she led scientific discussions with students and researchers in the Mechanical and Engineering Department, fostering valuable insights and advancing knowledge in Material Science.

We are grateful for her visit and contributions, which have significantly enriched our academic environment.

Dr Dominika Zabřegaj
Ass. Professor
Director of the Foundation Year (Programme Leader)
EDI Deputy Departmental Lead
Mechanical and Construction Engineering
