

Barbora Šodková

Sending Institution: VSB-Technical University of Ostrava

Position: Bc. Student

Project Name: *Modification of deNO_x-based catalysts mixed cobalt oxides with sodium*

Project Duration: 14.12. – 18.3.2024

Used Infrastructure: Chemisorption analyser, FT infrared spectrometer, Microwave reactor, Experimental unit for testing catalysts in microscale, X-ray powder diffractometer, Atomic absorption spectrometer, Physical sorption porosimeter

Expected Output: Final thesis
