

Portable biogas analyser

Description/Parameters

Handheld infrared/electrochemical analyser Geotechnical instruments BIOGAS 5000

Key specifications

- Robust, high quality design fit for anaerobic digestion sites
- Reliably measures gas levels of CH₄ (0-100%); CO₂ (0-100%); O₂ (0-25%)
- Includes sensors for H₂ (0-1000 ppm) and H₂S (0-2000 ppm)
- Data storage and download
- Infra-red bench technology
- ATEX Certified – Zone 1

Utilization/Services

Quick determination of biogas or similar gases composition.
