

Drum-type gas flow meter

Description/Parameters

Drum-type gas flow and total volume meters Ritter GmbH, type TG 0.5 for universal use in laboratory. Calibrated for biogas. Highest measuring accuracy of $\pm 0.5\%$ over the entire measuring range (1-60 ltr/h). Usable with extremely corrosive and inert gases. Real time data acquisition on PC.

Utilization/Services

Use for measurement of gas flow and total volume of biogas.
